

Project Aims to Assess Effects of Pollution

2012 Teaching Fellow [Ben Graves](#) and his Advanced Placement environmental science students at Paonia High School (Paonia, Colo.) were featured on The Daily Sentinel's website and on the front page of the print edition on Oct. 28, 2013. They are working with the [University of Colorado Boulder](#) and the [Western Slope Conservation Center](#) on a year-long project (2013-2014 school year) designed to evaluate air quality in North Fork Valley. Their project is also mentioned on the website of [KUBC](#).
